Service

Samuel Friedli

Systems
Engineer

Gregor Riepl

Systems
Engineer

Nicola Furest

Systems
Administrator

All Flash Storage

New SolidFire All Flash Storage Array

- High Performance Block Storage
- Scale Out Architecture: Adapt capacity and performance to the current needs
- Supports automation through API
- QoS Features

SOLIDFIRE

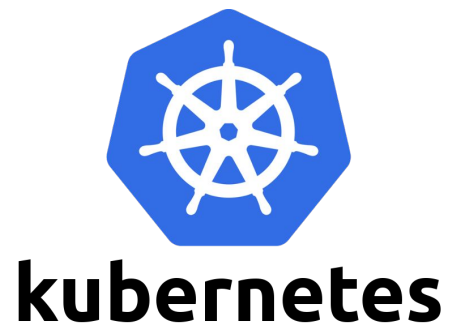

Kaltura partnership

- Partnership Kaltura: The Online Video Platform
- SWISS TXT is the first Kaltura partner to offer SaaS in Europe
- First customer “SBB CFF FFS” went live in August 2016
- Live Stream for Swissindoors Basel in September 2016
- Thanks to CloudStack and Ansible automation (see René’s talk later on) we fully deployed Kaltura redundant over 2 DC’s within 3 weeks

Containers
